Paper Money of the World-including USA

As all of you probably know, Krause Publications recently released the "Standard Catalog of World Paper Money" by Albert Pick. This is actually a companion piece to Krause's Catalog of World Coins and is a must for paper money collectors. This is the first mail bid sale that we have been able to use this catalog. From now on, the identification numbers used in our mail bid sales will be Pick numbers from this catalog with a couple exceptions. We will continue to use Criswell numbers for most USA and in the case of Chinese notes, we will use Smith & Matravers numbers in addition to Pick numbers. The reason for this is that S&M lists many varieties and provincial issues that do not appear in Picks. There may be some other cases in future where this will also be true.

The estimated prices will be Pick prices whenever they are available. When we switched to this method, it did cause one minor problem. This is, that, if we used Pick's prices, we also had to use Pick's system of grading so that the prices would correspond with the grade. Now the problem is that Pick's grading system is much more liberal than the grading that I have been attempting to use, especially in the lower grades. Of course UNC is the same but in many cases a note that Pick grades as F or even VF, in past I would grade as only good or very good. In other words, I do not agree with Pick's grading system. However, if we use Pick's prices we also have to use his grading system. Therefore notes in our sales from now on will be graded according to Pick and not our idea of what the grade should be. So, to our customers, please remember this when considering returning notes because of grading. These notes are graded by the Pick method and if a note by his method is VF, this is the grade listed. This does not mean that I believe the note is VF. This also means that if you think the note is only VG or whatever, this does not mean that you have the right to return it because the Pick grade happens to be VF. These notes are graded by Pick's method-not yours or mine. In other words, Pick's grading system is the final factor to be used in any grading disputes that might occur in the future. His system is explained fully in the front page of his catalog of World Paper Money. For USA paper notes, I will continue to grade as always. So please remember that These are Pick's grade, not yours or my grades. Thank you.

Notes For the Sale

After what seems as eons of time and after many unavoidable delays we have finally finished writing up sale #64.

Due to a lot of hot weather here which tends to make me more lazy than common (We have already had more 90 degree or over days this year than we had all of last summer). Also due to coaching a little league baseball team, occasionally umpiring and closing out consigners which entails a lot of extra work, we just simply fell way behind schedule. Oh, well, I will wager that 100 years from now no one will know about it or care if they did.

Received some bad news from Fred Brandes who has been a regular customer over

since our first mail bid sale and has been a consigner part of time also. We are re-printing the note and hope that by some quirk of fate some of you may be able to help Fred.

On June 17, 1975, the residence of Fred Brandes, at 1210 West 11th Street, Roswell, N.M. 88201, was broken into and my coin closet was also broken into and from this closet and from the den which the closet was in approximately \$10,000.00 worth of coins and medals were stolen. These were mostly foreign coins from most all countries including many hundreds of crowns which many of you have traded for my minors from my collection that you needed for your collection. In addition, were many coins specially struck and in special cases, duplicate sets of the new Canadian Olympic games in cases, a set number 0605 imprinted on the edge of Great American Triumphs by the Wittnaur Mint, and a partial set of another minting by Wittnaur depicting scenes and happenings in the West and many others too numerous to mention. The market for these coins is very doubtful in the Roswell vicinity but they may be offered by someone from some other nearby city. In addition, there were other articles such as guns, gold plated coffee service, and turquoise jewelry and other articles taken.

Many of these coins can be identified by the dates and Yeoman numbers and mint marks if offered in lots as I have a list of these I was sending around the trading circle. Any help or notices sent to any clubs would be appreciated. Fred Brandes

Every sale we receive a few inquiries in regard to consignments. As many of you know, in the past we have accepted consignments and charged a 25% commission for all lots sold. Due to the circumstances caused by the manner in which our sales are conducted, this is no longer possible. The price of paper and envelopes have skyrocketed as has postage and the newspapers are repeatedly saying that postage is to go still higher. If we limited our sales to a minimum of \$5 or \$10 per lot as do several sales, 25% commission would be sufficient. But we were one of the very few sales who list items as cheap as 10¢ and by doing this, there is no way that we can make a living by accepting

Notes Contd.

consignments at 25%. Although we have received many adverse remarks for following this policy, mainly from other dealers, we have no intention of changing our policy. We have too many valued Junior collectors who depend on these cheap coins to let them down. Also from personal experience, I know how disgusting it is to try to find out a date set, and never find one or two dates which sell for less than 25 cents which are needed to complete a set, because they are never advertised for sale. About the only thing a person can do under these circumstances is to bid on bulk lots when they are available and then if successful, 9 times out of 10 the missing date will not be in the lot.

I can almost hear someone say, "How come some mail bid sales accept consignments for a smaller commission than 25%?" There are two main answers to this question. These sales are either conducted by non-profit organizations or by people who have full time employment and income aside from selling coins. We are neither as we make our living entirely from our mail bid sales. Therefore we are sorry but we do not accept consignments, and at the present are doing our best to close out the ones that we already have.

Let me please state our policy on grading of material selling for 50¢ or less. In sale #63 we had a customer return some coins for which he had bid as low as 7¢ and complained that they did not grade up or had nicks or scrs which we did not mention. We have returned his money. Now, people, please be realistic. On this kind of material we have to look at it quickly, give it a grade and list it. We certainly cannot take the time to examine it under a high powered glass, list all the rim nicks, scrs, bruises, etc. and then receive 7¢ for it. Remember, most catalogues do not even take time to list this kind of material. Nor can we do it for up to 50¢. As we cannot and will not do this, we have two courses of action that we can follow. One is to quit listing lots at this price and I will say right now, we have no intention of doing this. The other thing that we

can do is to refuse to send this kind of bidder any more catalogues. Thank goodness we have only had three of this type of bidders since the beginning of our sales. One of them sincerely apologized to us when we pointed these facts out to him and I am happy to report that he is still a steady customer.

We would appreciate it if you would put your bid number on your check when sending payment. No need to return invoice unless you wish it receipted. Many do put bid number on checks and it is a big help in the bookkeeping department. Another thing—the post office has promised to try to help us get the catalogs delivered sooner. It would be a big help if you would write on your bid sheet the day you received your catalog. Then we will have something concrete to show to the post office. Thank you.

July 27, Sunday at 1:00 P.M. the Carolina World Coin Association will hold a picnic lunch at our home in Vass, N.C. If any of you are in the vicinity at the time you are welcome to attend. If it is convenient bring a dish to pass. If you are traveling, come any way. There will be plenty to feed you and you will be very welcome. We always enjoy meeting our customers.

Best wishes for a pleasant summer to all
from Clarence, Katherine and Dan
